CORPORATE MEDIA

## Your Single Source for AV Equipment Rentals, Video Conferencing & More

*Making Multimedia Magic*

## Corporate Audio-Visual Services

### Have All of Your Events Remembered Positively!

#### AV Equipment Rentals

#### AV Equipment Installs

Hosting an event can be a daunting process. When you are in charge of planning a:

- Conference or Workshop,
- Seminar or Training Session,
- Workshop or Webinar,
- Staff meeting or Employee Orientation, or a
- Banquet or Corporate Party

your guests will judge (and remember) your event by how well they see and hear.

CSRA Multimedia, Inc. has the professional equipment and know how to give every guest a front-row seat experience. With arena-capable Bose® sound, brilliant projection, and oversized screens CSRA Multimedia ensures every chair in the room is the best seat in the house.

**Adding or upgrading sight & sound equipment?** CSRA Multimedia has assisted numerous government offices, churches and country clubs in the analysis, selection and installation of the equipment appropriate for their needs.

We know you don't want to under-buy nor over-spend. Join the others who have trusted us to get it just right.

# Corporate Telepresence Services

## Cut Travel Costs and Maintain the Human Connection!

### Video Conferencing

**VU (Virtual Unity) experience**  
CSRA Multimedia can provide your company or organization with a cost-effective VU telepresence solution.

**increase productivity AND cut travel costs** - Our VU Telepresence systems make video conferencing a reality for small businesses who need to connect and unite their sales people in the field with the home office.

**Make a BIG impression with your client** - Give them a VU Telepresence system so that they can feel more connected to you and the project!

We can also assist you with larger installations requiring **Polycom**® equipment, which allows us to provide you with a state of the art enterprise solution that maintains its value and will allow you to quickly realize a positive ROI.

**Simplifying the process** - CSRA Multimedia can assist with all phases of planning, selection, installation, and training to ensure that your staff has an enjoyable experience. *Leasing options are available!*

Why should CSRA Multimedia provide the telepresence solution for your remote collaborations?:

- **HD Broadcast Quality** - Your meetings will be ideally suited for on-demand project collaboration, distance education, remote patient care and more.
- **Enjoyable Meeting Experience** - Your VU telepresence system enables your team to interact freely and naturally without the conference fatigue associated with internet-based solutions.
- **Share Content Easily** - VU Telepresence team members can easily share desktop content or videos, thus encouraging audience participation.

## We Can Produce the Message & Help You Deliver It!

### Video Productions

Our staff attends to all the professional details of your video project. We strive to give you a great product that meets your quality and budget requirements. Leverage your resources by using our team!

We have the following services available:

- Lighting
- shooting
- script writing
- green screen
- storyboarding
- editing
- sound effects
- voice overs

We have produced videos for delivery to PowerPoint, TV, CD/DVD, and Internet as:

- 30-second commercials
- Infomercials
- Web videos for YouTube
- Training Videos

### Media Conversion

CSRA Multimedia can restore the color and preserve your company's historic photos, old training films, or transparencies and slides by converting them to modern digital formats.

The digital version can be edited to update the content, or incorporated into presentations.

### Website Production

Today a website is as essential to your business as a phone number — perhaps more. Whether a simple landing page or a database-driven e-commerce website, CSRA Multimedia can give your company a dynamic Internet presence.
