

50% of Americans
cannot name more than
one great-grandparent.

And that is a shame.

Our grandparents didn't have photo albums and video recordings of their ancestors. Photography came of age during the lifetimes of today's seniors. Home movies and tapes followed some years later. We have an advantage they did not – a digital record to be treasured.

MEMORIES

***Digitally
Preserve
Treasured
Moments
of Your
Family
History***

Preserve the Past & Pass it On

Are the photographs and home movies that you have among your cherished possessions fading? The special events of your lifetime – weddings, birthdays, christenings, holidays – your family's history is suffering the effects of time. Happily, you can prevent their loss.

CSRA Multimedia can help you preserve your photographs, slides and movies using digital technology. Now your heritage can be vividly handed down generation after generation.

More than pictures fade – Memories do too!

Can you think of anything your family would cherish more in years to come than hearing Mom or Dad's voice telling family stories or explaining who is who in a particular photo?

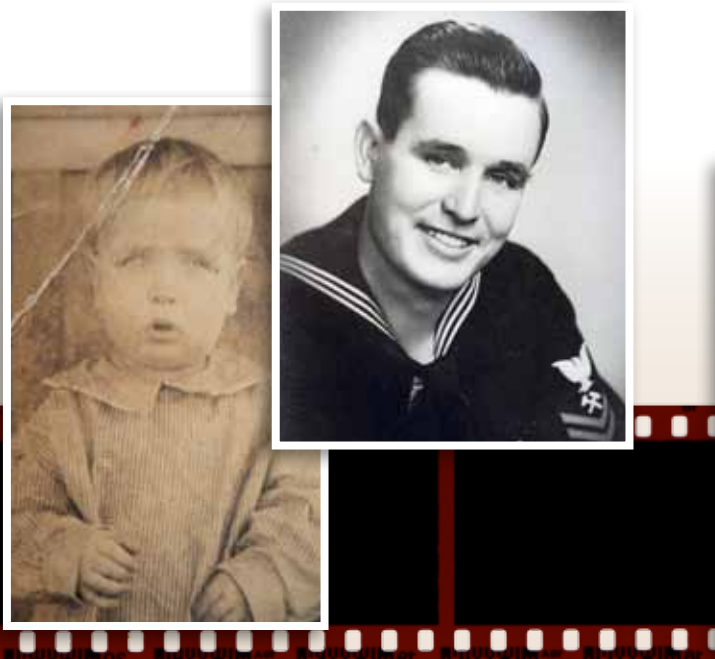

The friendly owners of CSRA Multimedia have a passion for hearing those stories while digitally recording them to preserve for your family.

Creative Applications

Whether it's a photo restoration, a talking photo album, a video tribute or a legacy video, even capturing single frames from old home movies, CSRA Multimedia can help your family's faces, voices and personalities transcend time, preserving them for future generations.

Affordable Services Priceless Memories

Call CSRA Multimedia today. Don't let another shade of color, or detail of memory fade away. It's your family's heritage. **Protect it. Pass it on.**
